

PRODUCT NOTICE

P# 777079 White-Noise Back-Up Alarm

We are transitioning our 97dB White Noise Back-Up Alarm to the specs found below. You will notice that amongst these changes, the Alarm will be made with two Screw Terminals instead of two Wire Leads and will remain polarity protected. Also, this Alarm will conform to SAE Spec SAE J994 (Type C). Because of these changes in the specs, the part number will change as well (777079 -> 777079S). This will be a running change. Please note that this Back-Up Alarm will be made available in 3 packaging variations:
